

Introduction

Redmon Group is a nationally acclaimed interactive media firm that develops interactive technology products and services to enable, train, and entertain. Founded in 1990, Redmon works with a diverse group of distinguished clients including corporate, public sector, international, and educational organizations. The company has developed over 300 custom products for over 100 different clients.

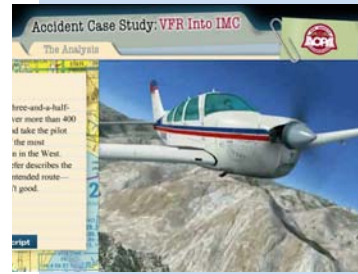

Redmon achieves success by working with our clients as partners, helping them to achieve their goals through the intelligent application of interactive technologies. Lasting relationships are built by offering a broad range of products and services including: kiosk solutions, digital signage, interactive museum exhibits, websites, e-learning, audio and video production, and Web hosting.

Equally strong in design and development, the tenured professionals at Redmon understand the art & science of technology and how to apply it in order to solve diverse challenges. Our broad proficiencies contribute to innovative problem-solving, ensuring project successes. Our clients enjoy the easy-working relationship and our commitment to excellence.

E-Learning

Activate minds, change behaviors and improve performance.

E-learning encompasses everything from mandatory corporate training to immersive, scenario-based learning simulations. And it's happening everywhere: laptops at the office, iPads on the couch at home, and media-rich interactive environments. With over 20 years of experience creating e-Learning, Redmon has the creative and technical expertise on staff to help you meet your learning goals in whatever form they take.

Capabilities & Services

Redmon provides full design and development services for interactive e-learning experiences. In fulfilling the company's mission to enable, train, and entertain, Redmon professionals focus on providing the most effective and innovative user experience possible while still respecting your development budget.

Since 1990, Redmon has been providing services to museums, science centers, associations, and corporate clients. By providing high quality service and a personal touch, Redmon ensures high customer satisfaction.
